

Boston Scientific Welcomes Introduction of Medical Device Regulatory Improvement Act in U.S. Senate

NATICK, Mass., Oct. 14, 2011 [PRNewswire/](#) -- Boston Scientific Corporation (NYSE: BSX) welcomes yesterday's introduction of the Medical Device Regulatory Improvement Act, sponsored by Sen. Amy Klobuchar (D-MN) and cosponsored by Sens. Richard Burr (R-NC) and Michael Bennet (D-CO). The legislation is intended to streamline the medical device review and approval process, reduce regulatory delays and help new medical technologies safely and more expeditiously reach patients.

Boston Scientific commends Senators Klobuchar, Burr and Bennet for their thoughtful leadership in introducing this new legislation designed to streamline the Food and Drug Administration's regulation of medical devices. This bill is an important step in transforming the process of bringing life-enhancing and life-saving medical technologies to market in a safe and more efficient and predictable manner.

Boston Scientific looks forward to collaborating with the sponsoring senators and other Members of Congress on this important piece of legislation.
